

Ralf Roeber

Management Assistant in wholesale and foreign trade, Software Project Management and BI specialist

Curriculum Vitae

After receiving the Abitur in Germany and Mexico he finished an apprenticeship as management assistant in wholesale and foreign trade, followed in 1993, by studies of management and economy at University in Bremen. In parallel he founded the first full service internet provider in Bremen, Germany as technical and financial head. He sold his shares after five years of operation and carried forward business for two years. In a transition period he managed the development of one of the first internet based foto finishing system for minilabs.

In 2003 he joined NOW! Consulting GmbH as senior consultant and shareholder. He managed a Cognos-based business intelligence project with the production plant of DaimlerChrysler, Bremen. Since then he developed and managed the business-intelligence of „Management Information Factory“, a data entry, data consolidation and reporting project for the global financial department of Daimler AG, Stuttgart. His team and adhoc-reporting solution was awarded a Cognos Performance Star in 2006 and won the DaimlerChrysler Innovation budget. He has trained trainer and enduser. In 2011 he founded AMVARA Consulting with strong engagements at Daimler AG.

He is married and has one son. His homebase is Barcelona, Spain, where he enjoys the multicultural life of a european metropolis preparing lectures regarding management of business intelligence projects and usage of BI tools. Ralf's mother tongue is german, he is fluent in business english. His spanish is native with a slight accent from latin-america.
